At VCA ARECA we strive to offer optimal care for your patients. Please visit our website at www.vcahospitals.com/animal-referral-arizona/services for a full description of our services.

Happy Valentine's Day from
all of us VCA Animal
Referral and Emergency
Center!

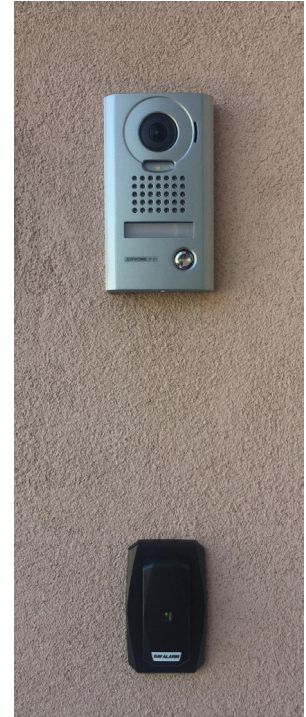

A and B are the major blood systems;
When it doesn't match up,
your cat's body will resist them.
If you want to avoid a disaster like that,
Make sure you're careful and **blood type your cat!**

Our Emergency/Critical Care and Internal Medicine teams are capable of [transfusion therapy](#) for your patients in our state of the art ICU.

ARECA Remodel Update

Changes here at ARECA are popping up faster than ever as we near the halfway point of our remodel. This month our new security system was installed! This system will help us to offer a safer environment for our staff and your clients while they visit our facility.

Please keep your eyes out in this news letter for a play-by-play of what we've added to our facility. This includes, but is not limited to, the future addition of telemetry and critical care ventilation, a blood bank, and an additional DVM in Internal Medicine who will start in August.

Stay Stocked!

Please visit our website at www.vcahospitals.com/animal-referral-arizona/for-vets/referral-forms for any referral forms or email Stephani.Rhodes@vca.com for other materials.

Stay Informed!

Continued Education at YOUR practice! Dr. Lopez is proud to offer [lunch time CE's](#) on a multitude of topics. Please contact Stephani.Rhodes@vca.com for scheduling.
